Dear Mike:

On behalf of the City of Ocala, I want to thank you for the phenomenal work you have performed over the past two years, designing and managing the renovation of our Ocala Golf Club. The city is receiving rave reviews from its patrons and it is clear to see that you have orchestrated the delivery of a golf course that rivals any public or private golf course in Marion County. With the oversaturation of golf courses locally and nationally, that distinction is critical to the financial sustainability of our golf recreation program.

As you know, design is key. Through your research and careful attention to detail, you have re-created our course to a lay out that harks back to many of the original 1920's design and added many features that open the course to all levels of play. The new course is visually striking and provides the correct amount of challenge and strategy according to each player's skill level.

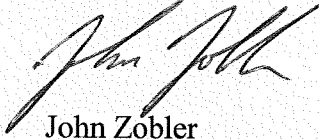

You also did an outstanding job managing the renovation construction. We feel extremely fortunate to have had MacCurrach Golf Construction as our contractor and you established a harmonious relationship that resulted in a project that was delivered on time, in budget and exceeded our expectations.

Lastly, and most importantly, your communication skills were repeatedly tested throughout this two year journey when you were the point person who had to take our golfing community, elected officials and the media through this very publicly sensitive project. Without one misstep, you handled each event professionally with the correct balance of consideration and professional guidance that resulted in a finished product everyone now universally supports.

Can't thank you enough Mike. Great job. Great outcome. Our course now has a great future.

Sincerely,

A handwritten signature in black ink, appearing to read "John Zobler". The signature is written in a cursive style with a large initial "J".
